

# NUT TREE

February 2021 Volume 35 (11)

[nuttreeeditor@yahoo.co.uk](mailto:nuttreeeditor@yahoo.co.uk)

## Nature Notes

Getting up early in January is still getting up late. It is 7.30 and there are 45 minutes until sunrise, but I want to take advantage of the low tide as I begin the walk to Shag Rock. The sky is eerily clear and there is a challenging frost. Stepping onto the beach I am alone except for the Herring Gulls. With no breeze the sea is flat and the gentle swash cannot hide their calls as dark shapes sweep down to the water. I have timed my visit perfectly as the tide has receded sufficiently to negotiate the first minor headland. The steep hillside beyond is well vegetated and, despite the cold and time of year, there is a healthy dawn chorus as birds begin to seek out sources of food. First, I hear a Robin - always an early riser given its large eyes and better adaptation to poor light. Blackbirds call and a Song Thrush utters its repetitive song. I can scarcely see the birds so my attention is drawn to the dramatic, crescent moon low in the south-east. Looking through binoculars I can see the whole sphere, barely visible from reflected light. I scan the distance between the moon and the brightening horizon and the planet Venus, our nearest neighbour, appears as a bright dot, the morning star. Then I catch sight of a small falcon, its silhouette rising over the sea. As it circles higher and higher, the Kestrel reveals its rufous tones and I continue to watch as it drifts out of sight to the west.

I pause to admire the parallel colours of red, orange and yellow as the sun catches the underside of wispy strips of cloud to the east. Approaching the rock, I can pick out a few shags on the top of the stack. The adults are sporting their crests and are already nest-building. A pair debate over the best use of a branch of seaweed which they hold up to the light. Seeking a suitable rock to sit on, I notice that I am not alone. A few metres away there is a sheep, sat sphinx-like on its own rock. She scarcely gives me a glance and makes no attempt to move. She is not injured, but there is no food here and I wonder why she bothered to descend over crumbling rock.

The partial rainbow of colour dissipates as the bright disc of the sun pokes above the horizon beyond Rame Head. The day dawns and a Raven croaks high above, whilst a Buzzard mews from a treetop high above the cliffs. I retrace my steps and walking closer to the cliffs there is the odd feeling of solid sand, frozen overnight. With increasing light, I can now pick out Redwings flying between ivy-clad bushes and challenged by Blackbirds. These Scandinavian thrushes are winter visitors and feeding so close to the sea indicates the coldness of the conditions. There are many Blackcaps too, easily picked out by their loud chats – there has been a big influx this winter. But one bird defeats me, the Black Redstart, another winter visitor – there were four here over Christmas but they have moved on. Closer to home I pass one other person, too late to witness the celestial attractions. I know that I am fortunate to enjoy some early exercise and to appreciate the solitude and the best nature can offer, all close to home. I have easily distanced myself from others, something that was difficult on this beach on the first day of the month.

*Alan Payne*

## **Deviock Parish Council**

Forthcoming virtual meetings: Full Council 11<sup>th</sup> February 7.30pm; Planning Committee 25<sup>th</sup> February 6.30pm. See Agendas for details prior to each meeting.

Housing Needs Survey: A final report based on residents' responses to the Deviock Housing Needs Survey will be submitted by Cornwall Council in due course.

Slipway: Cormac is hoping to complete works on the Seaton beach slipway in early February.

Assets: The Parish Council has adopted the Seaton BT phone box and will begin refurbishment work when safe to do so. An order has also been placed for a replacement noticeboard in Seaton (the bus shelter location).

As the Parish Office remains closed until further notice, please contact the Clerk via email if you have an enquiry ([clerk.deviockpc@btinternet.com](mailto:clerk.deviockpc@btinternet.com), Mon-Fri).

See the website at: [www.deviockparish.org.uk](http://www.deviockparish.org.uk) (where Agendas and Minutes are available). To comment on a planning application, go to:

[www.cornwall.gov.uk/environment-and-planning/planning/](http://www.cornwall.gov.uk/environment-and-planning/planning/).

## **Deviock Parish Council Loan Fund**

The Council provides interest-free loans (up to £1,000) to local organisations for specific projects (subject to terms and conditions). Please contact the Clerk or one of the Councillors if your organisation thinks it could benefit from this service.

*Karen Pugh - Parish Clerk*

## **Downderry Memorial Gardens Access Ramp**

Deviock Parish Council has arranged for the construction of an access ramp at the west entrance to the Memorial Gardens. This work is expected to be carried out at the end of February, weather permitting, which means that access will only be available from the Beach Hill end. We apologise for any inconvenience this may cause but welcome the increased accessibility to the Gardens that will follow.

*John Croft*

## **St Germans Parish Council**

During this COVID wave it seems like we are all treading water and going nowhere fast. Still things are happening. The Old White House, Pub, Shop corner kerb was marked out in the first wave and is being worked on as I write and will be finished in the second wave. Please be careful, particularly when approaching for the first time.

The Council have obtained funding for the next stage of progressing to a 20mph zone for the village of St Germans. This will be a feasibility study on reducing traffic speeds in various areas. We were surprised at the number of vehicles doing 40mph in both directions outside the Village Hall. Sometimes when people complain about excessive speeds it needs proof to get any action. When the study is finished we will be consulting before any changes are made.

The Bethany Chapel saga is moving to the next stage which is to establish the level of need before any decision can be made, it has been registered as a site of community interest allowing us time to investigate possibilities. A survey is being done on Survey Monkey online at [www.surveymonkey.co.uk/r/NRWMQTY](http://www.surveymonkey.co.uk/r/NRWMQTY) or there is a link on the Council's web site or, if you cannot access these, then paper copies will be at each notice board for returning. We cannot visit people or canvas in the current lockdown so please use the link. The building itself is beyond saving but a community use may be established.

Tideford Playpark is still closed as we are trying to sort out a lease, this means that the equipment which needs repair is unsafe and will not be covered by insurance and we cannot spend public money on something that we do not own or lease. It is a 'Catch 22' and the situation is made worse by the old lease having legacy Trustees who may still have an interest.

The Council is still functioning online although discussion is more difficult. We are getting more requests for funds from Charities due to the normal funding raising channels not working. The Citizens Advice Bureau are asking for help as their workload has grown dramatically and is bound to increase in the future.

The next online meeting is on Monday 25th February at 6.00pm. There will be a link to the meeting listed on the calling notice and agenda. Keep safe.

*Cllr Nigel Witton*

## News from County Hall - Cllr Richard Pugh

Spaceport Cornwall partner, Virgin Orbit, successfully completed its first full orbital launch of Satellite technology, bringing Cornwall one step closer to a launch from UK soil. Virgin Orbit accomplished their first commercial launch with the company's aircraft Cosmic Girl taking off from Mojave Air and Space Port in California.

Following the partial success of their first launch demo last May, the Virgin Orbit team have been focused on getting to this second launch. The work leading up to the launch benefited hugely from operational refinements as the Virgin Orbit team completed technical milestones at a much faster and more efficient pace compared to the initial demo.

The payload consisted of 10 Cubestats selected by Nasa and primarily designed and built by USA universities. As Virgin Orbit's key delivery partner in the UK the flights success validates Spaceport Cornwall's Campaign to become the UK's first Horizontal launch spaceport by proving Virgin Orbit's mobile launch system is capable of providing a responsive, affordable and efficient way to launch small satellites. In a much needed boost to the local and nationwide economy post-coronavirus Spaceport Cornwall is set to further strengthen the UK and Cornish industry by bringing 150 direct Jobs by 2025. Through this groundbreaking initiative an additional 240 jobs will be created in the supply chain and ancillary activities: positioning Spaceport Cornwall at the heart of the UK space industry by raising Cornwall's profile on the global stage.

If I can help anybody with Cornwall Council related issues, please contact me on 01503 220768 or [richard.pugh@cornwallcouncillors.org.uk](mailto:richard.pugh@cornwallcouncillors.org.uk)

*Cllr Richard Pugh*

## Editorial

Happy New Year from our first edition of 2021 - or happier at least, we hope. Through the global turmoil of 2020 (pandemics, lockdowns, Brexit, renegade Presidents etc) there's a certain reassurance to be gained from the pervading sense of calm civility and community that's been evident despite all the adversity that has encircled (but thankfully never overwhelmed) us here in the Nut Tree parishes. When seen from here, it is striking how many recent controversies seem to be arguments between supporters of such polarised thought. What happened to the middle ground; recognising that in all complex problems there will rarely be a perfect solution and that the answer to finely balanced judgements will normally be found close to the middle not at the extremes? With vaccines and good sense we'll all hopefully soon be able to meet once again 'in the middle' more literally - in our pubs, shops, streets, countryside and beaches. With the breaking news that the G7+ will meet in Cornwall, maybe there's distant hope that one of their number may chance on a copy of the Nut Tree and take note of our priorities! Or maybe it's better that such things, in our quiet corner of Kernow, carry on just 'passing us' by? *Ed*

## Quay Lane Surgery Patient Participant Group

Warmest wishes to everyone at Quay Lane Surgery, fellow patients and those particularly caring for loved ones at home. We will do our best to keep you up to date, but please be aware that news is changing sometimes daily, and what might be current at the time of writing, may not be exactly the same at the time of reading.

I would like to sincerely thank St Germans Parish Council for their generous donation to the PPG should extra medical and / or ancillary equipment be needed by the practice during the pandemic.

If you are shielding and urgently need support with your shopping or have any other welfare related issues - you can contact Jessica Hirons the practice Social Prescriber: Tel: 07976 122726 or e-mail [jessica.hirons4@nhs.net](mailto:jessica.hirons4@nhs.net). Please leave your Name, DOB and state that you are a patient with Quay Lane Surgery.

For patients who need help with shopping and other services who are not on the 'high vulnerable shielding' list - you can contact Volunteer Cornwall by telephone (01872 266988) or e-mail ([requestforhelp@volunteercornwall.org.uk](mailto:requestforhelp@volunteercornwall.org.uk))

*Mrs Claire Croft - PPG [quaylaneppg@gmail.com](mailto:quaylaneppg@gmail.com)*

## Quay Lane Surgery - Practice News

I would like to update you on some urgent but hopefully short-term changes at Quay Lane Surgery. As you may be aware, COVID-19 infection rates for Cornwall are high. As well as supporting our patients, our colleagues are also being affected. All this is happening, while we are delivering the largest vaccination programme the NHS has ever delivered.

Our doctors, clinicians and administrative staff are at the forefront of the vaccination programme and will be working shifts at the vaccination hub. We want to deliver vaccines to you and your families, as quickly and safely as possible. To help us do this national guidance has advised us to reduce all non-urgent work.

Our GP practice will remain open. You should continue to contact us if you have an urgent concern or have symptoms you are worried about. Please use the e-consultation portal on our practice website or contact us by phone. If you do need to speak to us by telephone then it may take a little longer to get through; we will ask some extra questions to allow us to triage your call. We will continue to offer urgent and emergency appointments and ask that you please be patient with us during this time.

If you have a routine problem that can wait, it will really help us if you wait until our

normal services resume in approximately 4 – 6 weeks. This will allow us to ensure we can redeploy staff to run the vaccination clinics.

You can use your local pharmacy for advice and you can also contact NHS.uk or call 111 for support. NHS 111 is available 24/7 and as well as providing advice can also direct you to a local service and let them know you are on the way.

Our vaccination programme has started and we are currently inviting patients, using the national priority list, to attend the vaccination centre at Millennium House in Pensilva, with a new centre opening at the China Fleet Club, Saltash in the next few weeks. As the vaccine becomes available we will contact patients to book an appointment so kindly ask that you please do not contact the surgery. Please be reassured we are all working as hard as we can to look after you and ensure a vaccination programme happens quickly and safely to protect us all.

*Mrs Debbie Todd - Practice Manager*

## **Simple Ways to Save the Planet**

It seems appropriate in the first Nut Tree of 2021 to wish you a happy new year. A change of year is often a good time to contemplate a change of leaf. I'm not a great believer in firm resolutions, as I find they break too easily, but am quite content to adopt the concept of aspirations. A desire to do just a little bit better.

These aspirations can be small at the start of the journey. Do you reuse or recycle as thoroughly as you might? Can you reduce your food waste? Buy less clothes? Drive less, walk and cycle more? Shop more locally? Eat more seasonally? Reducing consumption of animal products will also help, as much of the land deforested for soya is used for animal feed. So buy less meat, but of a better quality and always free range, organic where possible. Be flexible and prepared to accept failure and fallibility along the way. But most importantly keep aspiring. Any small steps to make improvements may feel insignificant, and probably are, but here is the crux... it may be insignificant but do it anyway! A mass of insignificant steps totalled together will have an impact. Forget what is happening on a global scale, for this environmental movement needs to start locally. And together we can make a difference.

*Lizzie Stroud*

## **Community Thanks**

Elsbeth Dunkey would like to thank everyone for their cards and kind thoughts.

Thank you to all residents in Seaton Park for dropping off donations of food, before Xmas for Liskeard and Looe Foodbank . This was gratefully received, our car boot was full and apparently it weighed 48.20 kilos !

*Jo and John, Trebula, Seaton Park*

## **A special message of courage and strength** (*Ed note: my headline not Charlotte's*)

Thank You!!! Hi Everyone! It's Charlotte here. It's been 4 weeks now since I lost my leg, as you can imagine it's been a hard time full of pain and grief and loss of independence. I may have lost a lot but the love I've felt this last month is more than many will experience in a lifetime. I may be biased but there is truly something special about our community and I feel immensely blessed to live amongst you all.

Everyday I get to look out my front door and see a tree full of beautiful messages from you all, I have the heart of the village in my garden. I have to thank everyone immensely for your generosity and donations to help my family and me. The money so far has allowed me to buy an I-walk, a piece of equipment that will give me independence and make my daily life easier for years to come. The rest of the money will eventually go towards the leg that allows me to live out my passion. Dancing is something that sets my soul on fire, when I dance all my cares and worries disappear and I forget for a moment that I have an illness, and to me that is priceless. It was important for me to tell you all, each and every one of you are amazing loving people with beautiful hearts and I cannot wait to see you all again very soon! I do post updates on my Facebook page of what I'm up to so please feel free to give me a follow. Best wishes,

*Charlotte Evans and family Xxx*

## **St Germans Thursday Club**

Whatever happened to 2020? We might wish that it had brought us all 20/20 vision of the future, but we blunder through, hopefully supporting each other and doing as little harm to our environment as possible. A daily walk, or time in the garden is a task, a right and a privilege. For me an especial joy is the sight and sound of the curlews at the river...usually egrets and only rarely at this time of year, a heron. But those curlews - one day we'll see one with a beak that curves up...aha, an avocet! but never yet...

Many thanks especially to our Chairwoman Jean for her wonderful idea, from all Thursday Club members, for the delightful bouquets in December. Those who had the very pleasant task of taking them round enjoyed sharing smiles and having a brief chat with recipients. My bouquet, slightly edited, still has lovely, perky white daisies to cheer a rather gloomy January.

Another surprise in February, but wild horses wouldn't drag it from me yet....

Keep in touch - phone our Chairperson, Jean Mills (01503-230324), or leave me a note at Merryweather Cottage (just along from St Germans shop).

*Sue Cousins 230106*

## News from DaSRA - Donderry and Seaton Residents Association

Is your internet slow and inconsistent? Residents are coming together to create a 'Community Fibre Partnership' with Openreach bringing Superfast Fibre to your home (FTTP.) Using the "Community Fibre Partnership" scheme, we need to register all addresses in the area who are interested, then Openreach will put together an obligation free quote. Openreach will pay a portion, the rest is for the community to finance and this can be funded by government gigabit vouchers, £1500 vouchers for residential properties and £3500 per business property (including sole traders.) DaSRA Committee Member Caroline Frith, with resident Caroline Walmsley, are co-ordinating a list of residents wanting their property to be included in this register. If you would like to register your interest, please provide your email and postal address by email to [dsfibrepartnership@gmail.com](mailto:dsfibrepartnership@gmail.com) or to [info@dasra.co.uk](mailto:info@dasra.co.uk) so you can be added to the list. We will get back to you when we have more information and decide if, and how, we go forward. Keep an eye on DaSRA's Facebook page for updates. Caroline Frith 07747 602820

No apologies for repeating an earlier Nut Tree post as we look ahead to continuing Lockdowns. We are all coping as best we can with these necessary enforced restrictions on our contact with one another, but do remember there is help if you need it. Donderry and Seaton Good Neighbours Group, set up in alliance with Volunteer Cornwall at the start of last spring's first Lockdown, has enjoyed a few quiet months, but our kindly neighbours are ready and willing to resume their befriending role, giving support to residents who continue to be restricted in their own social contacts. If, over the coming weeks, you, or someone you know, need some level of support, do get in touch, email: [info@dasra.co.uk](mailto:info@dasra.co.uk). 01503 250911/01503 250332. Stay Safe.

*Laura Done, Chair DaSRA*

### Community Bus News

Let's hope we can run more services in 2021 than we managed in 2020! We have made it this far, so let's stay safe and hunkered down until we can take our turns to be vaccinated, which hopefully will provide the key to so many much missed activities returning to our lives, including operating the Community Bus.

The community bus committee met at the end of December 2020 to discuss the latest state of play. For now the situation is as follows:

The bus is being well maintained and we are holding to the regular schedule for maintenance checks. Last year during the first lockdown we fitted a new battery and solved some problems with the brake sensor lights. The bus is "exercised" regularly to keep it running well. Insurance, tax and MOT are all up-to-date in preparation for a re-start of services, whenever that becomes possible.

During the second lockdown last year Jem Hall, our deputy chairman and operations officer, drew up a set of “Covid-safe” operating protocols with a view to getting services up and running again. Part of that action has involved reducing the seating capacity to just seven passengers to improve social distancing. We managed one experimental outing in late September to try out the operating procedures - cleaning interior surfaces, hand sanitising, facemasks, social distancing etc. It worked well, but the time did not feel ripe to restart scheduled services.

Obviously Coronavirus events then conspired against us all with the pandemic worsening in the final weeks of last year leading to another national lockdown.

The committee has agreed unanimously, that there is, sadly, no early prospect of re-starting our service with the duration of the latest lockdown uncertain.

In the meantime, however, we are putting our house in order for the spring with an AGM by Zoom planned to sign off the 2020 set of financial accounts. We will keep you posted on the details.

Jo Woodley, our 300 Club officer (see below) is doing a great job keeping the vital monthly draws running to secure one of the continuing sources of financial support for the bus, and Sue and Geoff Booth are continuing with their jigsaw/books/bric a brac sales to help with other fundraising in the absence of our coffee mornings. This is all especially important, when there is no income from running services, but we still have to carry significant costs of course. A big thank you to you all for continuing to support us in these efforts.

Let’s all pull up our shirt sleeves, get vaccinated and prepare for spring. In the meantime stay patient, stay safe, and stay well.

*Kevin Done (Chairman). Email: [kevindone@hotmail.com](mailto:kevindone@hotmail.com) 01503 250911*

### **Downderry Community Bus 300 Club**

Firstly, I must thank you all for donating your £12 annual sub. to OUR bus. For sure, this year she will be back on the road and we will be enjoying our trips out of the village?? Let's hope so. This (and last) month's winning numbers

<u>December</u>	1st No. 77 Jacquie Cottage	<u>January</u>	1st. No. 12 Neil & Ann Asprey
	2nd No. 90 Dee Crutchley		2nd. No. 158 Kathy Pope
	3rd. No. 125 Olga Britta		3rd. No. 31 Marie Bersey

Thank you all.

*Jo Woodley*

## Hessenford News

Hello all. The first and most important news this month is saying congratulations to Rachel, Dan & Harry and to welcome little (very little) Matilda to their family and the world. Matilda was born a little earlier than expected and we thank the midwife concerned for being alert to the facts presented to her. We look forward to seeing Matilda when time allows. We hope the lockdown gives Mike & Di lots of time to spend with their new granddaughter. Further congratulations go to Bianca & Mark at Port Eliot on the birth of their son George on the Tuesday before Christmas.

So what else is there to tell you. Well, I haven't seen anyone in Tracey's, Lisa & David's or Number 2, St Anne's View yet so I can't welcome them by name. And I haven't seen Ian & Angela's new puppy yet. But I have met Harry a few times (I might steal him when Margaret & Nigel aren't looking) and he's gorgeous. Karen tells me that Willow's eye operation was a success so that's good news. Any other doggy stories I should know about? Or cats even!!

Jean, for those of you who remember her, is doing well in her Liskeard Nursing home. Some of us regularly correspond with her, and we hear back from her daughter, who of course can't see her at the moment but is in regular daily contact. Sue is doing well but still waiting for an operation date, so all good wishes go to her. And Anna is slowly recovering from her broken shoulder due to black ice. Chris is doing a sterling job I believe. [An update on one of whom who has lived in the village the longest is Anna, I missed her out in a previous article!!] I've just heard that Betsy's had a fall on black ice too but she assures me all is well and the coalman was there at hand to help her up.

Well, I don't think there's much else I can tell you about. Please do keep a look out on our Hessenford Covid page on FaceBook as there's interesting information and some lovely photos taken by one and all. Don't hesitate to add to what's there if you'd like to.

One thing I would highlight is the Rock Choir singing group. It is free for children if anyone's children would like to join in with this. It's a great organisation. I sing with them along with thousands of other Rockies Nationwide, including Rose. I also sing [on Zoom at the moment] with Pentiddy Singers and Cornwall Collective. CC also run a children's choir. I love singing, it makes me happy and is very uplifting. You don't have to have a perfect voice [as those of you who've heard me sing will attest to!!]. Try it!!

I hope all parents in the village with school age children are not finding lockdown too onerous when it comes to home schooling. I'm sure there are people out there willing to help virtually if required. I also hope our University/College students lives haven't been too affected by the rules and regulations and you are able to continue with your studies, etc.

Nearly forgot to tell you we collected £144.99 (and I'll round this up) in our Candle Collecting Boxes, so thank you to everyone who returned theirs. If by chance you've still got one with a few coins in it please return it to me ASAP. If you'd like to start collecting for next year there are still a few empty ones in the church and I'm sure I can get some more. I will have made the on-line payments to the Children's Society and CHSW by the time you read this.

So cheerio for now, stay safe & well and if anyone needs any help with anything please don't hesitate to ask. There's always someone in the village able and willing to help. Hope you all get your vaccinations soon. Desperate for mine so I can start doing more again with friends. Stay hopeful and positive and find something to keep you smiling every day.

*Fran Moore*

## **Hessenford Church Hall**

Despite the flood protection of doors and walls, Hessenford Church Hall sadly flooded again on 18/19 December when the River Seaton burst its banks. We have applied for a grant to fund measures to dry the building out as soon as possible but it will be closed in the immediate term while we do this. As soon as the Hall is back in action we will let all of our regular users know. Thank you all for your patience.

*Fiona Bristow*

## **St Germans & Area Public Transport Group**

A reminder first about the government guidelines during lockdown: you can continue using the public transport network, staying local, if you need to travel for certain reasons - to go to work, for permitted education, to buy essential things at shops, or obtain services, including medical needs. It is also permissible to use public transport to make compassionate visits. You may also leave your home to do these things on behalf of a disabled or vulnerable person or someone self-isolating. For a full list of what is permitted see the government website - [www.gov.uk](http://www.gov.uk) and go to **Coronavirus (COVID-19): safer travel guidance for passengers**.

The law says that you must wear a face covering unless exempt when travelling in England by Public Transport, and in substantially enclosed areas such as rail, bus and coach stations. Stay safe by sitting at least two metres apart. Board and disembark one person at a time. Pay fares with contactless cards if possible. Wash hands before and after travelling. Do not travel if feeling unwell. Plan ahead and consider travelling 'off-peak'. You will know, probably, that the GWR timetable has been amended - we are pleased to say that the printed timetable we produced in December is still largely accurate, except for one train each way Mondays to Fridays: the 1253 train to Plymouth is now cancelled, and the 0902 train to Penzance is cancelled. That means there are still over 20 trains a day each way stopping at St Germans station. Weekend trains are largely as in the printed timetable, but there are changes from time to time, and Sundays are especially prone to this. Remember, then, to check whenever you plan to travel. At present, trains in the local area are not busy at all.

Buses similarly are not busy, and are still following the same timetable as at the end of last year. Transport for Cornwall say, "We are running at normal service levels to continue

getting those who need to travel across the local area to where you need to be.” There are no long-distance buses through Cornwall at present. And the only such service from Plymouth is the Stagecoach Falcon bus to Bristol - at present there are 7 each way. Megabus services are selling tickets from 23<sup>rd</sup> March. National Express have suspended all coach services nationally, and are going to assess the situation in February, possibly starting again in March.

*Alan Cousins*

**Rita’s Rota** – Things may change further so please check before making plans.
